Firming Eye Lotion 20 ml (0.66 oz)

The fine skin around your eyes is the first to show the signs of aging, as well as dark circles and puffiness. The delicate skin around your eyes needs extra special care because it's thinner than the skin on the rest of your face, so it's less able to hold in moisture, which leads to dryness. VIVA Toujours La Vie Repair Firming Eye Lotion with its light texture base uses herbal extracts and protein to effectively moisturizes, revitalizes and firms the skin around the eye area. Also strengthens the delicate skin making it less susceptible to forming wrinkles. It helps in reducing puffiness.

Features:

1. D-Panthenol - chirally correct form of vitamin B5 from royal jelly. It helps to calm and increase moisture to the skin.
2. Butcher's Broom / Gotu Kola / Calendula Flower / Horse Chestnut Extract - herbal extracts with anti-aging, soothing, calming and antioxidant properties. Reduces inflammation, strengthen, naturally firm and tighten and protects against free radicals.
3. D20 - is Heavy Water which is 10% heavier than regular water so does not evaporate as quickly and holds moisture. It is the ultimate moisturizer - a true hydrator.
4. D-Beta Glucosamine - from the Chinese Fox Glove plant, helps to strengthen skin. Keeps the outer skin in tighter alignment with the deeper layers of skin.
5. Hydrolyzed Yeast Protein - reduces puffiness and assists firming.

Directions:

Put a dot on each side of the eye and using the middle and ring finger, do patting and go round the eye from inside out. Use every morning and evening.
